ProEdge Plastic Framing

“ProEdge” Plastic Edging - Protective Framing

Plastic Edging serves two purposes. First, it provides excellent protection for the corners and edges of mounted prints. Second, it is an economical alternative to custom framing.

Plastic Edging can be Custom Sized to any print size.

Prints must be mounted on 3/16 foam board prior to install the edging.

We recommend that prints also be laminated.

Poster Mounting & OverLaminating

MOUNTING AND OVERLAMINATE

All prints up to 30x40 can be mounted.

Prints up to 20x30 can be overlaminated.

Foamcore is a dense white or black solid foam, 3/16" thick, covered with white or black paper respectively. Foamcore can either be displayed on its own or be framed.

Mural mounts are 1" thick rigid foam covered in black edging. It is meant to be displayed on its own.

Sintra is a white semi-rigid plastic board. It is meant to be framed.

Overlaminated available in canvas or luster. It is a clear plastic that prevents premature discoloration of photos and is waterproof. Do not place in direct sunlight. Unmounted prints not recommended for overlaminated.

n/a - not available

Turnaround time is 3 to 5 working days.

Indicate choice of mounting method will be (flush or oversize*)

* Oversized mounts usually have a 5" area around all four edges.

Oversized mounts are priced by the size of the mount board not the print.

For instance, a 20x30 poster on an oversized foam-core mount of 30x40 is \$ 28.00.
